

Apprendre à coder ou comment s'amuser de 7 à 77 ans

MERCI !

Les règles du FightgClub

- There is no rule
- Je ne détiens pas la vérité
- Il n'y a pas de solution unique et magique
- Utiliser le monde du gaming amène généralement une grande motivation...
- ... mais ça peut aussi complètement bloquer la personne
- De 7 à 77 ans (et même ça ne doit pas être une règle)
- Apportez votre propre enthousiasme
- Quand on ne sait pas, on le dit
- Soyez à l'écoute
